

Divya Konala

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of IT experience, including 2+ years of frontend development and 1 year of software testing, specializing in building scalable, responsive, and pixel-perfect web applications using React.js, TypeScript, Next.js, JavaScript, HTML5, CSS3, Redux, Tailwind CSS, and Material UI. Experienced in developing reusable UI components, integrating REST APIs, optimizing application performance, debugging complex issues, and delivering high-quality user experiences. Strong understanding of the Software Development Life Cycle (SDLC), Agile methodologies, and frontend best practices. Adept at collaborating with product managers, designers, backend developers, and QA teams to deliver reliable, maintainable, and business-focused software solutions.

PROJECTS

Frontend Developer, Mroads, Hyderabad

Nov 2023 — Present

- Developed core frontend modules for an AI-powered Freight Quotation Platform, including AI-based shipment data extraction from customer emails, quotation comparison across multiple Sea and Air freight providers, and quotation generation with markup, discount, and pricing calculations, streamlining the end-to-end freight quotation process.
- Developed and maintained frontend modules across Panna projects (ATS, Onboarding, Timesheets, and Accounts), including ATS modules such as Job Requisition, Candidate Profile, and Interview Scheduling, while resolving cross-system issues to ensure streamlined recruitment workflows, application stability, and smooth project delivery.
- Addressed and resolved issues across multiple systems—Accounts, Timesheets, ATS, and Onboarding—ensuring smooth project delivery.
- Developed and maintained responsive blogs and marketing pages across the Mroads and Panna platforms using React.js, implementing reusable components, optimizing performance, ensuring cross-browser compatibility, and delivering responsive user interfaces.

Test Engineer, Infosys, Hyderabad

Oct 2021 — Sep 2022

- Worked on an enterprise freight management application for CMA CGM. The application supported the complete ocean freight lifecycle, from customer booking to shipment transportation, Bill of Lading generation, Detention & Demurrage calculations, and invoice creation
- Executed functional test cases to identify defects and ensure quality.
- Collaborated with the team to validate business requirements and improve software accuracy

EDUCATION

Bachelor of Technology, Vignan’s Institute of Information Technology (Autonomous), Visakhapatnam

Jun 2017 - Jun 2021

COURSES AND CERTIFICATIONS

Full Stack Web Development Course, AccioJob

Oct 2022 – Oct 2023

Programming using Java, LEX, Infosys

Oct 2021 – Jan 2022

Automation AI Basic Training, Kore.ai

Nov 2025 – Nov 2027
